

LET'S PLAY OUTSIDE!

**OUTDOOR TOYS FOR CHILDREN**  
**PEDAL GO-KARTS**

www.bergtoys.com

# Playing is fun! Playing outside is even better.

Come play outside! Nothing beats having great adventures, on your own or with friends. You're in control and you decide what adventure you're going to have. Isn't that cool?

And that's how it all started. More than 25 years ago, Henk van den Berg built his own go-kart in the barn of his parents' farm. He and his friends had one adventure after the other. Many children loved his go-kart and wanted one for themselves. So he built a couple more and that's how BERG Toys started.

And now, 25 years down the line, BERG Toys has become the ultimate go-kart expert. Our go-karts, in all shapes and sizes, are sold in more than forty countries. From Australia to America and from Africa to Europe: children around the world have so much fun with our products, day in-day out.

But we're not doing this on our own. Our dealers are very important to us and you can always contact them if you have any questions. They give you expert advice, have a wide range of go-karts in their showrooms and if you want, you can visit them for an extensive test ride. That makes choosing your go-kart even easier.

Apart from go-karts, we also manufacture other outdoor toys such as trampolines, balance bikes and construction toys. And for the real daredevil, we have a real quad!

I wish you lots of fun with this new go-kart brochure. Discover the latest models and enjoy them just as much as we enjoyed inventing and making them.

Leopold van Os  
Managing Director

# Why BERG?

## Go-karting is fun and healthy!

BERG Toys has 25 years of experience in designing, producing and selling go-karts. We strive to design products that allow children to play in a fun and carefree way, both now and in the future. Durability is one of the most important aspects in realizing this, as a BERG go-kart guarantees years of playing pleasure!

## Innovative leader

BERG's extensive team of experienced designers and engineers is constantly busy renewing and improving our go-karts. That's our system for making BERG go-karts

better, more attractive and nicer to use. Whether it concerns technique, quality, easy use or design, each innovation is focused on increasing the fun of using our toys.

## Safety and quality above all

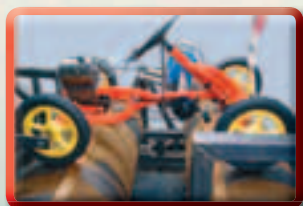

Children should be able to play with toys in a carefree and uninhibited way, which is why safety and quality is a given at BERG Toys. Aside from our own safety tests, our go-karts have also passed the tests of independent European testing institutes such as TÜV and Intertek.

## Environmentally aware

The future of our planet is important at BERG Toys. That is why our products are as environment-friendly as possible. This applies for example to the lacquer we use, as well as the synthetic components of BERG go-

karts. BERG's approach is to take into account the world around us whenever we can.

## Why BERG:

- ✓ Pure fun
- ✓ The safest choice
- ✓ Highest quality
- ✓ For good health and social skills

# A world tour of 17,000 kilometres

After an unique and very exhaustive, go-kart tour, 'our' Brazilian José Gerardo, alias Zé do Pedal will arrive in Johannesburg for the 2010 Football World Cup, around June 10th. On the 10th of May 2008, he mounted the X-plorer X-treme pedal go-kart – which was specifically adapted for him and donated to him by BERG Toys – right beneath the Eiffel Tower in Paris for a trip of 17,000 kilometres to Johannesburg. Zédo is using this trip to call attention to eye care for children in developing countries.

**Tour Report of Zé do Pedal**  
- Status as of 01.06.2009

- Hours on the go-kart: 2,300
- Kilometres covered: 18,000
- Top speed: 86 km/hour downhill and 28 km/hour through the Sahara
- Go-karted through 17 countries
- What I found most thrilling was the tour through the western part of the Sahara. In addition, the roads in Africa are so narrow that other cars nearly hit me when passing
- The greatest moment was the start in Paris on May 10 2008 because that was the beginning of my adventure

**CITY COMPACT**

**Make the city your playground!**

The BERG City go-karts are much more compact and lighter than the remainder of our go-kart range. This is why they drive smoothly, and are very manoeuvrable: the perfect go-kart therefore to cruise the narrowest of city pavements. And your parents will have no trouble storing the compact City go-karts!

## Drive into your own adventure world!

Want a ride on a 'real' engine? Want to go on a safari? Do you want to shift mountains of sand? Are you a boy or a girl? No problem! We have just the go-kart for everyone!

### SAFARI

#### Ready for a real adventure?

IT: Pronto per una vera avventura? Con le suoi impressionanti enormi gomme fuoristrada e i colori mimetici, il BERG Safari ti porterà dovunque vuoi. Che la spedizione cominci!

FR: Prêt pour la vraie aventure? Avec ses pneus tout terrain impressionnants et ses couleurs camouflé, le BERG Safari t'emmènera partout où tu voudras. Que l'expédition commence!

ES: ¿Te apetece una aventura real? Con sus impresionantes neumáticos todoterreno y sus colores de camuflaje, el BERG Safari te llevará a donde quieras. ¡Que empiece la expedición!

PT: Está preparado para uma verdadeira aventura? Com os seus impressionantes pneus para todo-oterreno e as cores de camuflagem, o modelo Safari da BERG leva-o a qualquer destino. Dê início à expedição!

### ConstruxX

#### Are you the builder we're looking for?

IT: Con il ConstruxX di BERG, dal colore giallo che salta all'occhio, potrete lavorare in qualsiasi cantiere! Il sistema opzionale di sollevamento anteriore e il cassone di sollevamento fanno del ConstruxX un vero e proprio escavatore.

FR: Avec le BERG ConstruxX jaune qui ne passe jamais inaperçu, tu peux te mettre au travail sur tous les chantiers! L'unité de levage frontal et le réservoir coulissant, en option, font du ConstruxX un vrai pelleuse mécanique.

ES: ¡Con el BERG ConstruxX de llamativo color amarillo puedes trabajar en cualquier terreno de construcción! Con la unidad elevadora delantera y la pala para excavar opcionales hacen del ConstruxX una excavadora de verdad.

PT: Com o robusto BERG ConstruxX amarelo, pode trabalhar em qualquer local de construção. O Dispositivo de Elevação Frontal e a Caixa Elevatória opcionais tornam o ConstruxX uma verdadeira máquina escavadora.

#### Attention!

The ConstruxX is not equipped as standard with a front linkage and a lift bucket. These are optional.

## Do the Balanz, ride the bike!

IT: Il BalanzBike è un triciclo raffinato che usa la sterzata col corpo, combinando divertimento ed esercizio.

FR: Le BalanzBike est un chouette tricycle qui utilise le corps pour se déplacer, associant le divertissement à l'exercice physique.

ES: El BalanzBike es un llamativo triciclo que se dirige con el cuerpo. Combina diversión y actividad física.

PT: O modelo BalanzBike é um triciclo que utiliza o impulso do corpo do condutor; permite combinar divertimento com exercício.

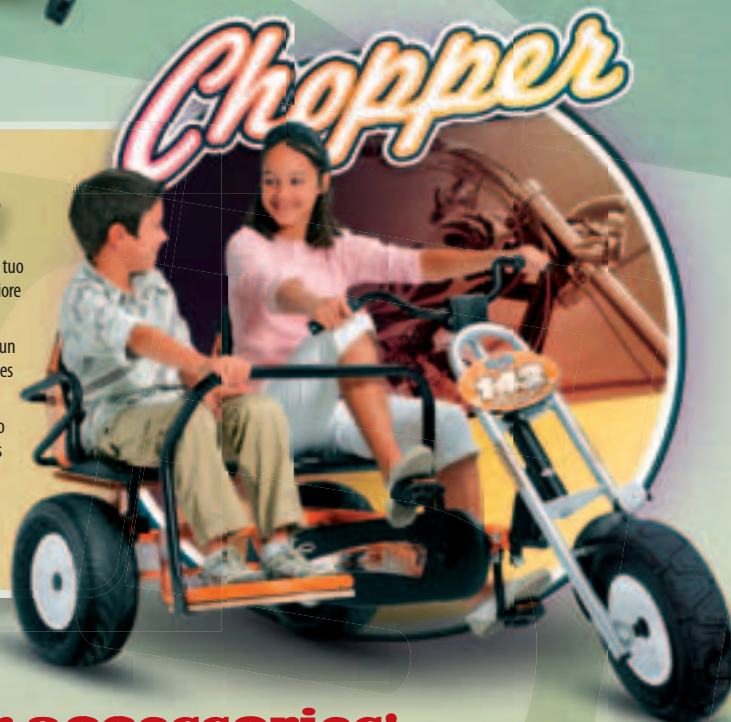

## Start the engine! Vroooooommm!

IT: Sarai il re della strada alla guida del BERG Chopper. Quindi: porta la tua ragazza o il tuo ragazzo a fare un giro in questo robusto Chopper, con la sua impressionante forcella anteriore e le impressionanti tonalità cromate!

FR: Tu seras le roi de la route au volant du BERG Chopper. Donc : emmène ton ami(e) faire un tour dans ce superbe Chopper avec sa fourche avant impressionnante et ses superbes teintes chromées !

ES: Dominarás la carretera cuando circules con tu BERG Chopper. Así que: ¡toma a tu chica o tu chico para dar una vuelta en este resistente Chopper, con su impresionante horquilla y sus destellantes cromados!

PT: Vai ser o rei da estrada ao volante deste modelo Chopper da BERG. Por isso: leve a sua namorada ou namorado a dar uma volta neste robusto modelo Chopper, com os seus impressionantes garfos dianteiros e acabamentos em cromado!

# You can be super fast and manoeuvrable

Finally, your first real cool go-kart! You and your buddy can explore the world and discover the wonders of playing outdoors. From now on, you're on your own. Mum and Dad don't have to worry about you because the Buddy and Triggy go-karts meet all safety standards. Playing at home in the sandbox is also fun because with Triggy's optional loader you can easily move everything, just like a real bulldozer.
